

Beautiful results every time

With cutting-edge features in a compact package, the Innov-is NV1800Q lets you put your own personal stamp on all kinds of fashion projects and home fabrics.

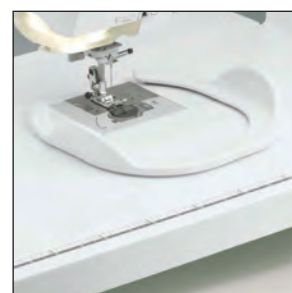

Optional extras

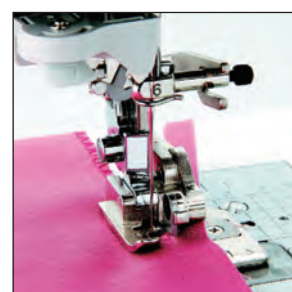

Circular attachment

With the measured circular attachment, you can create arcs, concentric circles and more. Use the braiding and cording feet to add those all-important finishing touches, like decorative trims and threads.

Free-motion grip

Enjoy the freedom of free-motion embroidery. Grip the fabric securely while moving it easily under the needle.

Side cutter

Cut and overcast fabric edges simultaneously to achieve a professional finish using various overcasting stitches.

Candlewicking foot

For sewing candlewick stitch.

5 Groove pin tuck foot

For making pin tuck with large interval.

Multi-function foot controller

Multi-function foot pedal with heel kick. Heel-kick function can be set out of following four functions, on the machine's setting screen.

- Choose from:
- Thread cutter
 - Sewing one stitch
 - Reverse stitch
 - Needle up/down

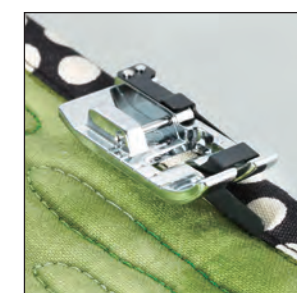

Bobbin work

Create reverse 'upside down' sewing with speciality decorative threads that don't fit through the eye of the needle.

Creative sewing pack

- Includes 5 kinds of useful sewing feet
- Narrow Hemmer Foot
 - Concealed Zipper Foot
 - Quilting Foot
 - Braiding Foot
 - Piping Foot

Stitch in the ditch foot

For sewing quilt bindings or concealed seams on clothes.

Straight stitch foot and straight stitch needle plate

Straight stitch foot and needle plate for perfect straight stitching.

Let your imagination take over

With all the support you could want from advanced features, the Innov-is NV1800Q lets you add your own flourish and flair to sewing and quilting.

With sophisticated features in a compact package, the Innov-is NV1800Q allows your imagination to run riot. There's a clear LCD screen. The touch sensor keypad allows you to enter the number of the stitch you'd like to use. And My Custom Stitch lets you design your own decorative stitches and save them to memory.

Features and functions

Hundreds of built-in decorative and utility stitches.

With the Innov-is NV1800Q, you get hundreds of built-in decorative and utility stitches, so you can explore your creativity to the full. With 232 built-in stitches at your disposal, you'll bring plain fabrics to life. The Innov-is NV1800Q is perfect for almost any sewing project, such as aing, fashion, home furnishing – and much, much more.

The Innov-is NV1800Q gives you these great built-in stitches:

- 99 utility stitches including 10 automatic one-step buttonhole styles
- 133 decorative stitches
- Five built-in fonts (three alphabetic, one Cyrillic, one Japanese).

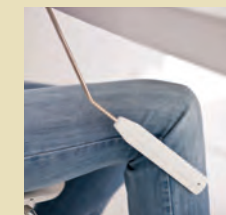

Key features

- Large clear LCD screen - displays stitch details and machine settings.
- Touch sensor keypad with direct stitch selection - simply enter the number of the required stitch you would like to use.
- My Custom Stitch - design your own decorative stitches and save them to memory for future use.
- Customised stitch settings - adjust stitch length, width and tension settings and save them to memory.
- Side feed - Side feed for multi-directional sewing in four directions. Sews extra-large decorative stitches up to 40mm wide.

SFDS – Square Feed Drive System

The enhanced Square Feed Drive System (SFDS) provides strong, smooth feed for optimum stitch quality.

Knee lift

Free up your hands by using the knee lift to raise/lower the presser foot. Ideal for working on larger projects such as quilts.

Wide table

Expand the sewing area with this extra-large extension table. Ideal for large quilting and sewing projects. The table includes a measurement guide and storage area for your knee lift.

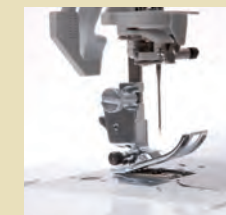

Advanced needle threading system

Simply follow the thread guide, lower the lever and the needle is threaded for you.

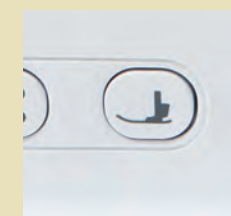

Slide speed

Slide speed control adjusts speed from slow to fast. This can also be set to alter stitch width whilst sewing.

ICAPS

ICAPS fabric sensor system continuously detects fabric thickness while sewing and automatically adjusts pressure to ensure even stitch quality over different fabric thicknesses.

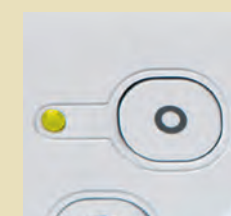

Presser foot up/down button

The presser foot up/down button is conveniently located on the front of the machine.

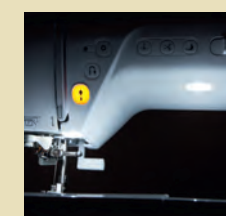

Pivot function

The presser foot automatically lifts as the needle remains lowered. Allows the fabric to be turned quickly and accurately.

Lock stitch button

At the touch of a button, tie-off stitches can be easily sewn at the beginning and end of the stitch. When pressing the button while sewing a decorative stitch, the machine will stop automatically after completing the motif.

LED lighting

Extra-bright LED lighting to illuminate your work area with a clean, natural light.
